This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. WAR DEPARTMENT.

Document No. 276.

OFFICE OF THE CHIEF OF STAFF.

WAR DEPARTMENT,
OFFICE OF THE CHIEF OF STAFF,
Washington, D. C., June 23, 1906.

The following table of distances, prepared by the Pay Department, is published for the information and guidance of disbursing officers of this Department charged with payment of money for mileage or other travel based on distance.

It is the result of a careful comparison and combination of the best official data available, the figures and routes being brought up to this date and based upon the consideration of comparative cost, distance, and time, which determine the choice of the "shortest usually traveled route" contemplated by law.

This table will supersede all similar publications heretofore issued from any branch of the War Department, and will take effect October 15, 1906, from which date it will be recognized authority for estimation of distances until corrected by competent authority. The elimination of bond-aided railroads took effect on and after June 12, 1906.

The figures upon the right of the names in the table indicate the total distance. Where figures occur upon the left, they indicate the miles of "free" and fifty per cent land-grant railroads, over which officers, when traveling on duty and without troops, should procure transportation in kind from the Quartermaster's Department.

It is ordered that hereafter post commanders shall report without delay to the Paymaster-General the abandonment of old or the establishment of new lines of travel to or from their respective posts, and when a new route is opened, involving travel by stage or buckboard, shall report as to the carrying capacity for passengers, the number of trips made a week, the distance, and the authority therefor, and such other information as may have a bearing in the determination of its practicability as a route for passenger traffic.

BY ORDER OF THE SECRETARY OF WAR:

THOMAS H. BARRY,
Brigadier General, Acting Chief of Staff.

Extracts from the Law Governing Allowances for Travel (G. O. 115 of 1906).

For mileage to officers and contract surgeons when authorized by law, four hundred and fifty thousand dollars: *Provided*, That hereafter officers, active and retired, when traveling under competent orders without troops, and retired officers who have so traveled since March third, nineteen hundred and five, shall be paid seven cents per mile and no more; distances to be computed and mileage to be paid over the shortest usually traveled routes, with deduction as hereinafter provided; and payment and settlement of mileage accounts of officers shall be made according to distances and deductions computed over routes established and by mileage tables prepared by the Paymaster-General of the Army under the direction of the Secretary of War. The Secretary of War may determine what shall constitute travel and duty without troops within the meaning of the laws governing the payment of mileage and commutation of quarters to officers of the Army: *Provided further*, That officers who so desire may, upon application to the Quartermaster's Department, be furnished under their orders transportation requests for the entire journey by land, exclusive of sleeping and parlor car accommodations, or by water: and the transportation so furnished shall, if travel was performed under a mileage status, be a charge against the officer's mileage account, to be deducted at the rate of three cents per mile by the paymaster paying the account, and of the amount so deducted there shall be turned over to an authorized officer of the Quartermaster's Department three cents per mile for transportation furnished, except over any railroad which is a free or fifty per centum land-grant railroad, for the credit of the appropriation for the transportation of the Army and its supplies: *And provided further*, That when the established route of travel shall, in whole or in part, be over the line of any railroad on which the troops and supplies of the United States are entitled to be transported free of charge, or over any fifty per centum land-grant railroad, officers traveling as herein provided for shall, for the travel over such roads, be furnished with transportation requests, exclusive of sleeping and parlor car accommodations, by the Quartermaster's Department: *And provided further*, That when transportation is furnished by the Quartermaster's Department, or when the established route of travel is over any of the railroads above specified, there shall be deducted from the officer's mileage account by the paymaster paying the same three cents per mile for the distance for which transportation has been or should have been furnished: *And provided further*, That when the station of an officer is changed while he is on leave of absence he will on joining the new station be entitled to mileage for the distance to the new station from the place where he received the order directing the change, provided the distance be no greater than from the old to the new station; but if the distance be greater he will be entitled to mileage for a distance equal to that from the old to the new station only: *And provided further*, That for all sea travel actual expenses only shall be paid to officers, contract surgeons, contract dental surgeons, and veterinarians, to paymasters' clerks, and to the expert accountant of the Inspector-General's Department, when traveling on duty under competent orders, with or without troops, and the amount so paid shall not include any shore expenses at port of embarkation or debarkation; but for the purpose of determining allowances for all travel under orders, or for officers and enlisted men on discharge, travel in the Philippine Archipelago, the Hawaiian Archipelago, the home waters of the United States, and between the United States and Alaska shall not be regarded as sea travel and shall be paid for at the rates established by law for land travel within the boundaries of the United States.

Extracts from Laws Governing Traveling Expenses of Paymasters' Clerks and the Expert Accountant of the Inspector-General's Department.

* * * *Provided further*, That hereafter the maximum sum to be allowed paymasters' clerks and the expert accountant of the Inspector-General's Department, when traveling on duty, shall be four cents per mile, and in addition thereto, when transportation can not be furnished by the Quartermaster's Department, the cost of the same actually paid by them, exclusive of parlor-car or sleeping-car fare and transfers. (G. O. 20 of 1893.)

* * * *Provided*, That hereafter actual expenses only shall be paid to paymasters' clerks and the expert accountant of the Inspector-General's Department for sea travel when traveling on duty to, from, or between our island possessions. (G. O. 68 of 1902.)

Havana, Cuba.

Under the act of June 12, 1906, actual expenses only are payable for all travel performed on or after June 12, 1906, between the United States and Cuba.

For travel performed on or after June 12, 1906, from one point to another in Cuba, *mileage* is payable where the shortest usually traveled route is an overland one, and actual expenses when such route is by sea.

In the Official Table of Distances issued by this Office all distances given between points in Cuba, where the shortest usually traveled route is by sea, are listed "steamer," all other stated distances being overland, thereby distinguishing the points of travel for which actual expenses may be allowed from those for which mileage accrues.
